

IXON TRAINING

TR002 – Service Lifecycle Professional

Get your staff up to speed with live machine data in no-time.

The Service Lifecycle Professional training will help your employees understand how to collect live data and set alarms for their machines. This training is recommended for all people in your company who set up alarms and create live data dashboards.

Training topics

Topics

- Configure your portal
- Connect with your PLC to get data
- Visualize data using the data studio
- Set up alarming, notifications and connection monitoring
- Troubleshooting

Scope

- **3 hour** workshop
- Up to 7 participants

Location

- IXON headquarters in Boxmeer (The Netherlands)
- In agreement with IXON, in-company or online
